

# HAND of San Francisco Helping After Neonatal Death

[www.HANDsupport.org](http://www.HANDsupport.org)

**HAND of San Francisco** is a chapter of **HAND of the Peninsula**. We are a support group for parents who have experienced the death of their baby through miscarriage, stillbirth, interruption of a wanted pregnancy after prenatal or genetic diagnosis, or death during birth or in the first year of life. Many parents feel overwhelmed and confused by this devastating loss, and it can help to talk with others who understand and share a similar loss. Our goal is for parents to help other parents, in a safe place to share experiences and feelings, and to support each other through the grieving process. All bereaved parents, their family, and friends are welcome and there is no fee for our services.

**For support and more information, please call the  
HAND of San Francisco facilitator, Chris Lehr, LCSW, at (415) 282-7330.**

Helping After Neonatal Death support group of San Francisco meets	
Dates:	First and third Wednesday of every month
